BAKKU VASE BIG

Introducing the Bakku Glass Vase Collection, a celebration of organic beauty inspired by Japanese aesthetics. The name ”Bakku,” meaning ”bag,” perfectly captures the essence of this unique vase, which features a shape reminiscent of a collapsing bag.Crafted to highlight the beauty of imperfections, each vase in the Bakku collection embraces fluidity and form, adding a touch of artistic elegance to any space. Each Bakku vase is meticulously formed from mouth-blown glass, where the coloured glass is heated to 1500 degrees before being shaped inside a custom mould. Air is then blown into the glass to achieve the iconic Bakku form. Afterward, it’s taken out of the mould and placed inside an oven for tempering, with the top opening finally cut even and polished. Available in two sizes, the mini vase is ideal for a delicate arrangement of flowers on a dining table or as a charming accent on a console or coffee table. For those looking to make a bold statement, the larger vase is perfect for displaying vibrant blooms or striking branches. Place it on a coffee table to create an eye-catching focal point, or let it stand alone on the floor as a stunning glass sculpture. The Bakku vases come in a captivating Smoked Forest colour, a transparent dark hue with a subtle hint of green, bringing depth and sophistication to your décor. Elevate your interior with the Bakku collection, where artistry and nature converge in perfect harmony.

Designed by Kristian Sofus Hansen & Tommy Hyldahl.

Product no: 251035

Type: Vase - Indoor

Designer / Year of design:
Kristian Sofus Hansen & Tommy Hyldahl, 2024

Colour: Smoked Forest
Material: Glass
