KAMI VASE MINI

Inspired by paper bags, Kami Vase emphasises the aesthetics of crisp and crumbled paper bags. Kami, the Japanese word for paper bags, is an ode to the Japanese way of working with paper art. Kami vases has an uneven surface with curves and cracks, former the shape of a crumbled paper back with crisp endings and edges. The vase emphasizes beautiful organic design with a handmade touch.

Kami comes in three sizes and is available in two colors. Choose between the crisp Bone White, emphasising the imitation of crumbled paper bags, or the Chrome colour with a shiny, mirror-like surface, adding a sleek and modern expression to the interior.

The surface is hand glazed to achieve a unique mat surface texture and is made from ceramic. The colours may vary slightly, due to that it's a handmade product. Glazed on the inside with waterproof lacquer, Kami is 100% waterproof and can be used for fresh flowers.
