SUNAO VASE SLIM HEXA

Sunao, the Japanese word for being honest, is all about the simplicity and timeless beauty of classic vase design. Embracing this spirit, the Sunao Vase Slim collection introduces a sleek, slender profile that complements the original Sunao's iconic shape. Each vase in this collection is crafted to fit seamlessly into any interior style and comes in four thoughtfully sized versions. The smallest size is a petite, decorative vase, ideal for single stems or small floral arrangements, adding a touch of subtle elegance to a bedside table, shelf, or kitchen nook. Moving up in size, the medium options provide a balanced presence, perfectly suited for coffee tables, console tables, or as a dining table centerpiece, able to hold fuller arrangements without overwhelming the space. The two largest sizes transform into impressive floor vases, ideal for larger spaces such as living rooms, hotel lobbies, and grand entryways. These vases are crafted to hold larger branches or decorations, becoming statement pieces within the interior. Available in smooth, matte finishes of Birch and Black, the Sunao Slim vases are meticulously crafted from ceramic and hand-glazed to create a soft, tactile surface. This artisanal process lends unique character to each piece, with subtle color variations that make every vase distinct. With a fully glazed interior, Sunao Slim is not only beautiful but highly functional, as it's entirely waterproof and suited for fresh flowers, branches, or as a striking standalone sculpture. Rooted in simplicity and nature, Sunao Slim combines elegance and utility, serving as both a functional vessel and a timeless work of art in any space.
