URCHIN PLANT POT PETIT

Inspired by the quiet elegance of the sea urchin, Urchin is more than a planter it is a reflection of nature's gentle wisdom. Its oval vessel floats above three bold, sculptural legs, like a creature poised between land and sea. These legs, both grounding and graceful, cradle the water, offering it back to the earth in measured whispers, while the open space beneath allows roots to breathe and stretch freely. A meeting of beauty and purpose, Urchin honours the delicate balance between strength and fragility a celebration of life unfolding, quietly and endlessly, in the embrace of earth, water, and air. This series comes in four thoughtfully crafted sizes, each designed to embrace the beauty of nature in all its forms. The Big plant pot offers a home for towering trees and generous, leafy companions, giving them the space to stretch and thrive. Medio welcomes medium sized plants and bold statement greens, bringing balance and life to any corner. Mini holds the quiet charm of succulents, compact plants, and delicate floral accents a celebration of small wonders. And Petit, the tiniest of the family, is perfect for tender herbs and the most delicate sprouts, honouring the beauty found in nature's smallest details. These plant pots are thoughtfully designed with a small drainage hole at the base and a matching saucer, ensuring optimal water flow and air circulation for plants.
