URCHIN PLANT POT MINI

A symphony of texture, this beehive inspired surface hums with organic beauty a tactile invitation to explore nature's artistry through your fingertips. Formed from delicate casts of shellfish gathered along windswept shores, this texture holds the memory of the tide, the whisper of the ocean, and the intricate language of the earth itself. Each ridge and curve pay tribute to the quiet wonder of nature's design a timeless vessel shaped by land, sea, and imagination. This series comes in four thoughtfully crafted sizes, each designed to embrace the beauty of nature in all its forms. The Big plant pot offers a home for towering trees and generous, leafy companions, giving them the space to stretch and thrive. Medio welcomes medium-sized plants and bold statement greens, bringing balance and life to any corner. Mini holds the quiet charm of succulents, compact plants, and delicate floral accents a celebration of small wonders. And Petit, the tiniest of the family, is perfect for tender herbs and the most delicate sprouts, honouring the beauty found in nature's smallest details. These plant pots are thoughtfully designed with a small drainage hole at the base and a matching saucer, ensuring optimal water flow and air circulation for plants.

Designed by Kristian Sofus Hansen & Tommy Hyldahl.

Product no: 251065

Type: Plant Pot
Indoor/outdoor, not frostproof

Designer / Year of design:
Kristian Sofus Hansen & Tommy Hyldahl, 2020

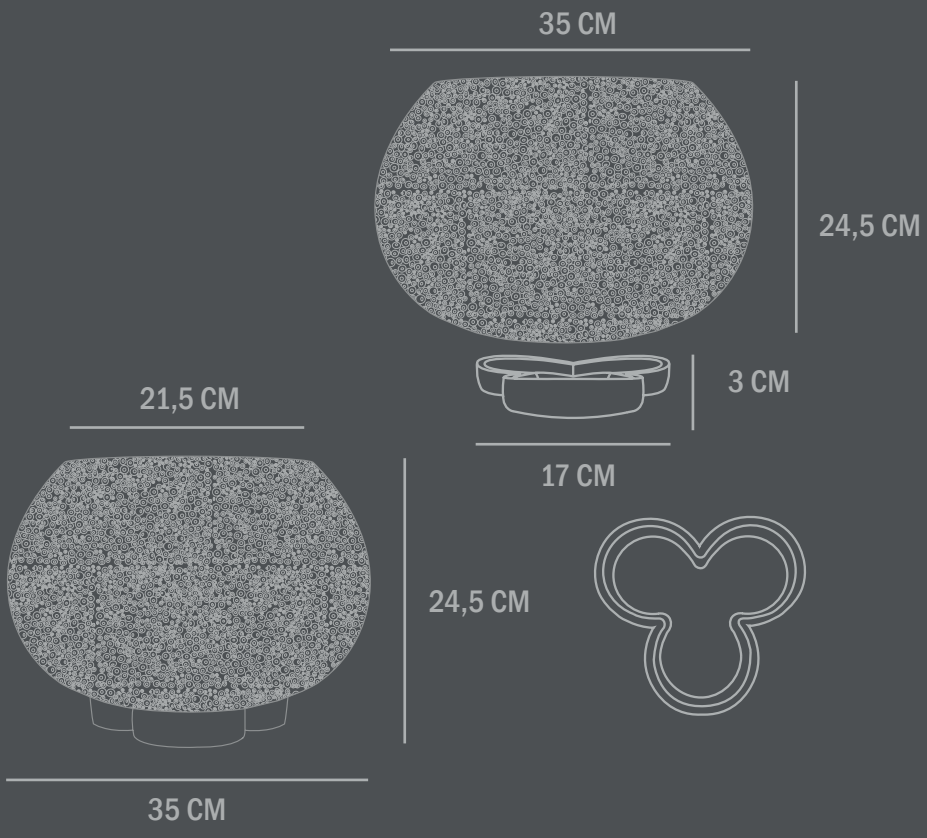

Colour: Birch
Material: Fiber Concrete

Care instructions:
